# EDUCATION FOR THE REAL WORLD.

**PES PU College, an integral part of PES University, located in Bangalore, India, is one of the country's leading teaching and research universities. The University is committed to providing "education for the real world" that inspires students to realize their potential.**

**Our students graduate with the ability to adapt to an intellectually and technologically changing environment. Over the years, we have accomplished this with the participative efforts of the management, staff, students and parents.**

Today, the programs at PES are sought after by students from around the country. Leading industries choose PES when they need the right talent. One of the key reasons for this is the institute's focus on admitting the best talent in India and abroad. Our faculty is our most precious resource and one of the three pillars on which PES rests (the other two are students and infrastructure). Our faculty members develop and deliver the educational programs that bring excellent students to PES in the first place. All our campuses incorporate infrastructure that matches the best in the country – ensuring that students have everything they need for a stimulating campus life. The classrooms are planned to maximize light and space and students have access to the latest computing and research facilities.

*We realize that our students represent the future of our society and we take our responsibility seriously. We ensure that the rock-solid foundation we help them build here – both, in terms of skills and values – will stand them in good stead no matter which career they choose.*

# Why PES?

Through our unique learning methodology, we strive to inculcate one of the most sustainable habits in students i.e. Self-learning.

We have observed several short-term and long term benefits of the methodology.

**Nurtures Creative Thinking**

**Helps Longer Learning Retention.**

**Builds Self-Confidence**

**Enhances Problem Solving Skills**

# ADVANTAGE YOU

We believe in blending right academic rigor with language, life skills, leadership training along with physical and mental fitness training programs. Exhaustive study material prepared by our subject experts ensures sound learning and excellent results. Also, regular parent-teacher interaction to discuss student performance gives an added advantage to get set for the real world.

01

### State of Art Infrastructure

Spacious Classrooms and Well Equipped Labs

02

### Teaching Methodology

Pre-class Preparation, Classroom Experience, Post-Class Study

03

### Technology Based Teaching

Spacious Classrooms and Well Equipped Labs

04

### Highly Qualified Facilitators

Enabling academic excellence, Proven Mentoring System, Individual Monitoring

05

### Life Skills & Sports

Life Skills program & Counselling by Experts, Facilities for outdoor & indoor sports

06

### Tracking System with Parents app

Attendance Tracker , Homework Tracker, Pre-Class Tracker, Report Analysis

07

### Periodic Testing System

For PU & Competitive: Weekly Test, Cumulative test, Term Exams, Mock Exams for Competitive

08

### Performance Analysis & Mentoring
